HARTZELL PROPELLER

2027

TRAINING CLASS SCHEDULE

AND RESERVATION FORM

Students are required to read, speak, and understand English. Translators are permitted and are the responsibility of the student. There is no class fee for translators.

Customer training by Hartzell Propeller is conducted in Piqua, Ohio at our state-of-the-art manufacturing facility. Classroom instruction includes theoretical and practical approaches in addition to "hands-on" instruction. Class sizes are maintained at a level that encourages individual participation. Reservation forms and fees should be submitted as early as possible. Due to the high demand for some of the classes, spaces are filled on a "first come, first served" basis. A "waiting list" is available.

e.

(1) If multiple persons are registered from a single facility, reservations will be honored, but Hartzell may require your facility to cancel one or more of your proposed attendees in order to assure attendance from as many facilities as possible.

(2) Reservations must be received no later than 30 days prior to the class start date.

(3) Training fees will be invoiced upon Hartzell's receipt of the reservation and must be paid in accordance with the facility's payment terms with Hartzell. **Registration will not be confirmed until payment is received. Certificates will not be given.**

(4) All students are subject to security screening, and must provide Hartzell with a scanned copy of valid photo identification no later than 30 days prior to class start date.

(5) Hartzell must be notified of attendance cancellations at least two weeks in advance of the class. Late notification will result in a 50% cancellation fee.

(6) Classes may be added or cancelled at the discretion of the training department. At least 30 days notice will generally be given if a class is to be canceled. If applicable, deposits will be refunded or credited for a future class.

(7) A class with an insufficent number of registered attendees will be canceled 30 days before the beginning of the class.

Training will take place at the manufacturing facility located at One Propeller Place, Piqua, OH 45356.

Piqua is approximately 20 miles (32 kilometers) north of the Dayton Internation Airport. Transportation arrangements can be made with a rental car agency (Budget, Avis, Alamo, Hertz, or Dollar) at the airport. **There is no public transportation available in Piqua. Rideshare services are recommended**

(1) Class attendees will be met in the main lobby of Hartzell Propeller at approximately 8:50 a.m.

(2) Classes typically end between 4:00 and 5:00 p.m.

(3) Please do not schedule departing flights before 6:00 p.m. on the last day of the class.

Customer On-Site Training

Customer on-site training may be available on request, and is subject to instructor availability. Travel expenses, per diem, and class fees may apply in these cases. Customer on-site training class fees are subject to change based on Class topic. Customer is also responsible for shipping costs of all related training tools, equipment, and supplies. Contact Hartzell Product Support at techsupport@HartzellProp.com to inquire about on-site training.

The fee for the two day class is $4,000.00 USD.

Composite Blade Field Maintenance And Minor Repair / Propeller Maintenance And Inspection or the A&P Repairman

April 12-14
August 16-18

Class enrollment is limited to 6 persons with a 2 person minimum.

Attendee Prerequisites: A&P Certificate or Repairman Certificate

This course is designed for the A&P/IA or Repair Station Repairman to confidently inspect and repair Hartzell composite/aluminum blades. The classroom portion will discuss the four common types of composite blade damage: deformed erosion shield, debonded erosion shield, face/camber material gouge, and crushed/cracked trailing edge. An afternoon hands-on session offers the opportunity to repair composite blade damage. Classroom instruction includes how to navigate Hartzell Propeller Owner Manuals, Field Maintenance Manuals, Airworthiness Directives and Service Bulletins, and discusses evaluating propellers for airworthiness at annual inspection.

Class Fee:

The fee for this class is $4,000.00 USD
